

There for you

We accompany families with children up to the age of 5 – especially from crisis areas.

Dear Mothers, Dear Fathers,
Dear specialists and persons accompanying refugee families,

Do you need free support with regard to health, development and education matters, or do you wish to talk to other mothers and fathers? We are also there for families from crisis areas who have taken refuge in Switzerland!

We are flexible when it comes to providing you with advice, either on our premises, in your home, in collective housing centres, online, outside during a walk or at the playground and in our group meetings. You can also make use of our meeting points with play areas, nappy-changing and breastfeeding facilities. At some sites, there are also parent cafés and toddler groups.

Do not hesitate to contact us with your concerns. Do you need a translation and have no one who can translate? Get in contact with us. We will find a way to help you!

Specialists and accompanying persons can also contact us if they have any questions or concerns.
